

Final Exam MAC283 Fall 2024

For the following software [Here](#):

Be a software detective and find out the password.

1. (40%) Use your own words to explain each line of code.
2. (30%) Explain in details the logic of the program?
3. (30%) What is the password(s) for this program?

You have 90 minutes to finish the exam.

Time saving hint: I ran this program using AI Chatgpt and it gave completely wrong answers for the logic and password.

Please email your answers to prof@dpeled.com and before leaving, wait for confirmation that I received your email.

GOOD LUCK
