MAC283 Classwork NO. 1

Answer the following 4 questions
For full credit you must show a step by step explanations :

1.   Convert 870678(9) = x(27)
2.   Convert ABF(16) =x(64)
3.   Subtract APG(32) - 7RK(32) =
4.   Multiply BF(16)* CA(16) =

Submit your work by the end of today's class via email with an attachment
of either (Image, PDF, Word document etc.) to: prof@dpeled.com

 Once I verify that you submitted your work you may leave the class.

Good Luck,

David Peled
