

## MAC283 Quiz NO. 7

The last Assembly program we did in class displayed the following:

```
ABCDEFGHIJKLMNOPQRSTUVWXYZ[\]^_`abcdefghijklmnopqrstuvwxyz
```

You can see that it includes a few characters that are not letters.

Accordingly, use the ASCII table and edit the existing program to create a new program that Displays the following:

```
ABCDEFGHIJKLMNOPQRSTUVWXYZabcdefghijklmnopqrstuvwxyz
```

Please submit your work to [prof@dpeled.com](mailto:prof@dpeled.com)

*Make sure that I received your work before you leave.*

**Good Luck!**
