

## Classwork NO. 6

For the following program: [Here](#)

Read About the AND command and about any command that you may have not previously understood in the book. [Here](#)

1. Write an explanation for each line of code.
2. Write the logic of each procedure (function). How does it work?
3. Run all the options of the program and explain in details the logic of the entire program and how does it achieves its goals.

Submit your work to [prof@dpeled.com](mailto:prof@dpeled.com)

This classwork is due by Tuesday May 21, 2024 noon time.

Partial credits will be awarded.

Good Luck!
